

How to... dress your dog in the Walk for Wag bandana! (It's harder than it looks.)

Some people have been having a few issues tying the bandanas. If they aren't tied properly then you might think they are too small. We hope this helps you.

See the diagram, as you can see you need to fold it over towards you twice and then you get a lovely neat little bandana, which fits at the widest point.

Get in touch if you have any difficulties or queries. Happy tying!
